2 February 1970

GROUP 1 Excluded from automatic downgrading and

	MEMORANDUM FOR:	Support Services Historical Officer	
	FROM :	OTR Historian	
	SUBJECT :	Draft of the 1949-51 Segment of OTR History	
25X1A 25X1A [1. Herewith a copy of the revision of the paper on the 1949-51 25X1 period. I'll appreciate having your comments and suggestions before preparing the final draft for through-channel submittal.		
	span stuff that I've kept are explained in foot notes. I've retained most of in-text documentation, but I've gone back to the sources for whatever specifics I could find to validate the documentation. I've also edited text to the extent that the present text is virtually a re-write.		
	3. In this draft I've used the asterisk device for footnotes. What's 25X1A best for the final draftnumerical by page or numerically sequential throughout the text? What's the best format for heads and sub-heads? I like the one I've used, but it can easily be changed. Maybe can come up with a couple of editorial pontifications.		
	4. Sorry to inflict a carbon on you, but I need the original to prepare for final-draft copy and I wanted to avoid the expense of duplication.		
		25X1A
